

November 16, 2020

Dear Members of the Board,

The pace of activities at Heritage on the Marina is increasing. We now are having all three meals in our dining room. We residents are very pleased with this change of events, as we all missed the social interaction, and better food. The staff did an outstanding job of serving us in our apartments, but the food was not the same quality as in the dining room. Sitting on a tray for 30 minutes does not enhance flavors. Our big thanks to the dining room staff on their increased hard work.

We now have three outings every Tuesday in the van, for four people at a time, and this outside activity has been well received and appreciated. One and half hour trips to nearby scenic and interesting sights are the norm.

We also continue to have exercise classes, inside and out, and outside visitors on a prearranged schedule.

We hope the 2021 budget has funds for improvement to all four of the outside doors and gates. None are currently automatic and this causes great difficulty for those with walkers and wheelchairs.

Also we hope replacement of the elevator in the Morgan building will be researched.

We thank you board members for your service and dedication and hope you all have a pleasant Holiday Season. Stay well.

Bernie Burke, President Residents' Council.
