

February President's Letter

Dear Board Members.

February has been a very busy month here at the Heritage on the Marina. We have a large number of residents with birthdays, who get acknowledged by a notice on the Electronic boards, a song at dinner and many cards from fellow residents and team members. The continuing "Out and About" program, while limited to four residents at a time, has been a big success. Trips around San Francisco to previously ignored locations, one trip throughout the four Chinese neighborhoods, and one to lower Marin County have been greatly enjoyed. Management has many more events planned, especially if some COVID-19 restrictions are lifted in the future.

Special Valentine, Mardi Gras and Chinese dinners were welcome events. One resident (Katie Loo) has done a lot of work planning and shopping for the Chinese dinner.

We have had one false fire alarm, set off by a contract worker cleaning in the kitchen. The fire alarm rules are in need of review. We used to assemble outside, but now the fire department wants us to shelter in our apartments. This requires filling in gaps around apartment doors which was started last year but put on hold by COVID restrictions. Now that contractors are allowed in after proper screening, that work can resume this year.

We continue to appreciate the helpful, friendly attitude of our team members. As you have been told, 95% of our residents and staff have been vaccinated, and we are very grateful for that.

We continue to appreciate your time serving as directors.

Sincerely,

Bernie Burke
President Resident's Council
