

May Residents' Council Letter to Board

Dear Board Members,

Another month has passed us by, and it was a busy one. Last week was Nurses'/Spirit Week, when most staff dressed in a different theme each day. The imaginative staff did very well with their choices. This event was certainly good for morale.

The Library Committee added books and they continue to cull the shelves of books not being used to make room for more.

The Garden Committee has also been working hard for the visual enjoyment of us all. Thanks to them.

We are trying to rebuild the Committee work group now that restrictions are less and we can work together more.

Residents appreciate Mary Linde's management style, especially trying to know us all by name and our health conditions and situations. We appreciate the work you all put in on or behalf and look forward to seeing positive changes.

We will have our first ZOOM Residents' Council monthly meeting this Friday and are hoping for a large participation.

Along with spring and daylight savings, we have had a sighting of a large Owl and a Hawk in the trees in front of the Morgan Building. Good Luck?

Respectively,

Bernie Burke
