

August 19, 2021

Dear Board members,

As you have been made aware, we residents are having meals delivered to our rooms and have had any group social activities postponed or cancelled. We are free to leave the campus and enjoy the outdoors as in the past. The biggest hardship is not being able to socialize in the dining room. With good testing results next week, that may change. We all hope so.

The wait staff does their best to deliver our meals in a timely manner and we are grateful to them. With sunny afternoons, many residents enjoy our wonderful garden and walking in the Marina area. Such great vistas to enjoy.

The complex will be getting a new dog in the Francisco apartment that looks onto the garden. A long haired dachshund, I believe. The Leichum's have moved into the middle Octavia apartment. Another newcomer, Patrick Alexander, has assimilated extremely well the last two months, and most have met him.

Our maintenance staff continues to do its usual good job in keeping things working and in good order. Thank you to Oleg and his staff.

We continue to marvel at the cheerful attitude of our nursing and physical therapy staff. They help keep everyone's spirits up in a trying time. We are all hoping to be back in the dining room in September. Keep your fingers crossed. Management continues to keep us up to date.

I am always available to answer any questions you may have.

Sincerely,

Bernie Burke  
Residents' Council President
