Board Letter from Residents' Council President

Dear Board members,

September has been a rather busy month for Heritage on the Marina staff. Because the dining room has been closed, they have added work to think of imaginative things for residents to do. The Activities and Dining staff have done an exemplary job helping to keep us entertained. They have developed Zoom activities and afternoon treats have been delivered to our apartments. A few residents consider eating in their apartments as a "lock down," when it is not. We are still free to leave the campus for most any reason. We are asked to mask whenever we are out of our apartment or off campus, and most do.

When you meet via Zoom next week, we hope to be back in our dining room for meals. We are keeping our fingers crossed. We have three new residents who seem to fit in well, so far. One new resident in the Francisco Street Garden Apartment has a dog, a black long-haired dachshund named Siegfried, ("Siggy" for short.) We look forward to resuming all of our group activities: Out and About trips, exercise classes and other enjoyable get-togethers.

Respectfully,

Bernie Burke
